RECEPTION TO FOLLOW

Amid new outbreaks of measles and whooping cough, Governor Brown recently signed SB 277, which will require all California students to be immunized before school. The campaign to pass this bill was one of the hardest fought in recent times. We're honored to have the bill's author, a working pediatrician, join us for a de-briefing of the campaign, along with two mom -organizers who played key roles in pushing back against misinformation that flooded the internet and polarized parents. Don't miss this **FREE** and lively discussion! **Please RSVP by 11/3 (RSVP appreciated but not required!)** at: tinyurl.com/BOTG15ChildImmune
