

LEADERSHIP FELLOWS PROGRAM

developing leaders from the inside out

WHO WE ARE

A cohort of students who....

REPRESENT

every concentration in the School of Public Health

LEARN from one another

SHARE experiences

GROW in our abilities to make a difference

CHALLENGE each other to reach new heights

WHAT WE DO

Consulting Team Projects.

Identify challenges of a local public health organization and propose innovative solutions to address them

Field Trips.

Travel to Sacramento, Oakland, & San Francisco to learn about the career pathways of public health leaders

Build Community.

Expand personal & professional networks through Friday Community Learning sessions, skill shares, social activities, and summer retreat

Develop building blocks to be effective leaders.

Gather feedback from a multi-source 360 assessment

Create an individual development plan

Explore personal and professional goals & action steps with a life/career coach

Learn strategies to make decisions, inspire others, develop a vision, & make it happen

Gain knowledge & skills in various leadership competencies including facilitation, public speaking, organizational awareness, communication, & teamwork

OUR REFLECTIONS

I have become more self-aware, thoughtful, & intentional about the way I do things and why.

Fellows demystified "leadership" ...and made it clear that it is a never-ending, empowering journey.

I was able to practice & gain exposure to core leadership competencies in a safe environment focused on learning & growing.

I feel confident now about how to approach a complex project or task -- in terms of breaking it down and building positive, effective dynamics

THANK YOU
 to the Eustace-Kwan Family Foundation for its generous support
